Any suggestion regarding the implementation of some best practices in the department?

NA

Interdisciplinary training programme may be organised frequently for students because such collaborations helps the evolution of ideas, develop critical thinking skills, heightens communication skills and provide more in-depth perspectives. Additionally, Alumni meet may be organised so that current students can expand their horizons by interacting with department's alumni.

Regular departmental meetings would be conducted. A departmental Whatsapp group is needed where everyone should have the liberty to voice their opinions. Above all, all faculty Members should try and maintain a conducive, professional and a productive environment.

Zoology laboratory waste segregation and recycling mechanism must be there.

More industrial visit, lab visit and hand on workshops to enhance students skill and exposure

no

More space for research is required

Projectors in every class

Lab number should be according to students ration,more number of bigger labs are required; one Big staff room is needed for sitting of all faculty members at one place ; One big lab only for research purpose

Cleanliness should be focussed on a bit more if possible.

Regular meetings, open discussion before and after workload/ time table preparation and distribution, will bring more clarity within the Department.

More student centric lecture series and workshop should be conducted

-

Can have more of hands on sessions for practical experience/applications of different papers

Student feedback for the Department of Mathematics highlights a generally positive experience with teaching quality and departmental support. However, students suggest enhancements such as incorporating more mock tests and class tests, providing solutions for exercises, and increasing practical and application-based content. They recommend slowing down the pace of complex subjects like Real Analysis and integrating subjects like Computer Science as a Generic Elective. Regular doubt sessions, career counselling, and interactive teaching methods are also desired. Some students express the need for updated syllabi, better alignment with entrance exams, and additional career-oriented skills. Overall, while the teaching is appreciated, there's a call for more engagement and support from teachers.

# Feedback -Department of Psychology

## 2022-2023

Dear students,

It is our sincere endeavour to provide you a thriving atmosphere for your personal and professional growth. We try seeking your inputs from time to time to function to the best of our ability within the resources provided by the University.

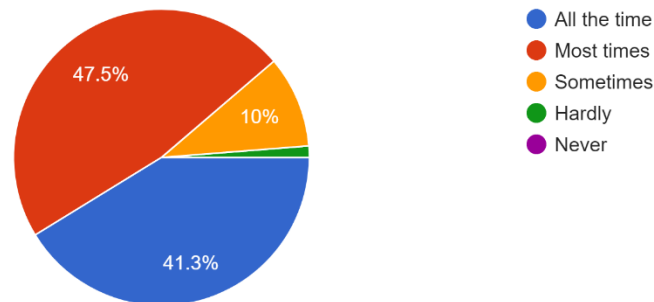

Please take out some minutes of your time to help us understand your inputs. We shall incorporate the same for the upcoming Semesters.

Thank you!

### Any-other Feedback or Suggestion

No, you are doing great. We are blessed to have such an amazing department.

The department of Psychology has the best faculty. The teachers are so inspiring and wonderful. The classes are so enriching and interactive. There is so much that the students get to learn from the teachers.

None.

I really appreciate all the teaching staff for their considerate attitudes towards the students.

Only gratitude for this department

If possible, outlines for all practicals should be finalised at the start of the session.

Nope

I am really grateful for how understanding our teachers are. I got sick with dengue earlier this year and still all teachers were really understanding towards it. Thank you.

**Action -Taken**

Post the Feedback all the faculty members discussed the ways in which to respond to the feedback and discussed it with all the student batches. This activity is conducted annually and concerns of the students are addressed in the classroom and over the mentorship spaces where teachers meet with specific and smaller batches of students to discuss their professional and personal concerns.
