Message From T.I.C.

Memories! Yaadein!! The word itself is enough to invoke vivid images of the past- some bringing a smile on our face, some invoking a somber reflection.

I would like to congratulate team Reflections for choosing such a heart-touching topic, for a batch of students who are going to leave college behind, with hope and enthusiasm in their eyes and heart filled with excitement about what the future holds for them.

The journey forward will be shaped by memories of the college life, the lessons learnt, the failures, the fun, and the joy, the ups and the downs that marked the three years of college life. The experiences we have during our college life shape our personality, help us grow, become more mature and sensible, and the impression of these stay with us for a large part of our life. Writing about memories makes me feel nostalgic about my own college life (which is just about 30 years ago !!). It brings back memories of the time I joined Gargi college and Comascent had just started, and later developed into a magazine from a newsletter. The idea to start Reflections was a wonderful idea to stay connected with our graduating batch, to help them keep alive the memories of college life, to keep revisiting their college campus, classroom, canteen every time they turn the pages of the magazine.

I sincerely hope that this endeavor of the department to keep alive the memories of the time spent together, of the academic and other activities where the faculty and students participated together, will not go in vain. Memories, sweet and sour, shape our identity, help us understand our own emotional response to situations, and help us develop better relations with others. Every bit of experience makes us what we are today, and I very sincerely hope that all of you will always stay connected to your college. We all would always look forward to meeting you in future, to hearing from you, to rejoice in your accomplishments, and to celebrate together. I wish the graduating batch Best of Luck for their journey ahead. Live life fully, enjoy everything that comes your way, make the best of whatever situation life throws at you, because as they say: **Jo Hai Samaa...Kal Ho Na Ho !!**

The background of the image is a close-up, painterly illustration of several pink roses. The petals are rendered with soft, blended colors ranging from light pink to deep magenta and red, with some areas showing yellow and orange highlights. The texture of the petals is visible, giving it a soft, almost tactile appearance. In the center, there is a rectangular, cream-colored paper tag with a slightly deckled bottom edge. A small, silver metal paperclip is attached to the top right corner of the tag. On the tag, the text "Batch of" is written in a black, cursive script, and "2022-2025" is written below it in a bold, black, sans-serif font.
